

Travis Ziebro

Associate

EXPERIENCE

Travis Ziebro has over 15 years of engineering and management experience in all aspects of manufacturing operations. He has held Director level positions in plant management, engineering, and project management in firms such as Toshiba, Texas Systems & Controls, and Cameron International amongst others. Travis' range of experience spans from small startups to private equity backed enterprises and Fortune 500 publicly traded companies. Travis currently runs Momenta Tech, a software development firm focused on targeted solutions for mid-market manufacturing and distribution.
